3M Respiratory Protection. Give them confidence to do their best.

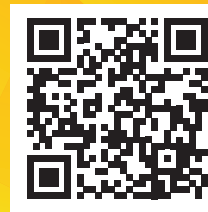

Why 3M Respiratory Solutions?

Comprehensive range of disposable respirators, reusable respirators and PAPR systems.

Innovative products that are designed to suit diverse work environments.

Provide comfort, safety and peace of mind to your workers.

Order eligible disposable respirators and get bonus Fit Test Kit.

Featured Disposable Respirators on offer:

3M™ Particulate Respirator 9322A+

Buy 48 boxes and receive one bonus 3M FT-30 Fit Test Kit.*

Original 3-panel design allows for greater facial movement.

3M™ Cupped Particulate Respirator 8822

Buy 48 Boxes and receive one bonus 3M FT-30 Fit Test Kit.*

Effective respiratory FFP2 protection against dust and mists.

Test your fit.

Find the right respirator and increase level of protection with fit testing.

Why do you need fit testing?

Respirators are most effective when there is an adequate seal between the edges of the respirator and the face. Contaminated air can leak in through the gaps when this seal is broken. 3M offers fit test kits and product training sessions to help you implement a fit testing program at your workplace.

Why fit matters?
