CleanSpace®
RESPIRATORS

Technology that keeps you protected, connected and confident

CleanSpace is the global leader in respiratory protection solutions, offering intelligent PAPR systems and programs that prioritize protection.

Our lightweight systems, featuring patented AirSensit® technology, provide superior protection from lung hazards, enabling wearers to work at their best. With real-time information, users have visibility and control over their lung safety.

- Peak airflow: 230 L/min
- Enhanced acoustics and communication
- AirSensit® technology: monitors mask pressure 100 Hz

- Power Unit 400g (lightest PAPR on market)
- Compact/few parts: No adaptors, tubes or connectors
- Compatible with half and full face masks
- Particulate and gas filters available

Work-related lung disease is a major contributor to Silicosis, Chronic Obstructive Pulmonary Disease (COPD) and lung cancer, which is why we prioritize respiratory protection.

CleanSpace

- Run time: 12 - 14 hours
- Quick charge: under 2 hours

Technology that tracks respiratory protection

In the workplace with airborne hazards, employers must implement and manage an effective Respiratory Protection Program, consisting of four components to fulfill their duty of care:

MONITORING/REPORTING:

Surveillance in place to ensure compliance and shape behaviours/processes as required

CORRECT USE:

Staff are capable and confident on the use and care for their respirators

RELIABLE PROTECTION:

Respirators that consistently meet or exceed site requirements

SUITABLE WORKFLOW:

Respirators are working, available and ready to use when needed
