

Diamond Guard 870 is a premium protection/masking film with a high level of adhesion. It is used extensively to prevent outside debris from entering the duct work and contaminating the ventilation system.

## Benefits

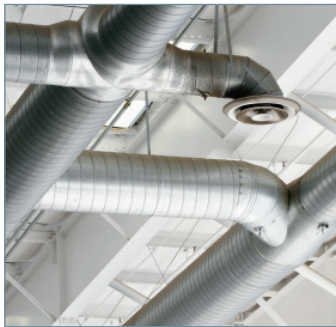

- Optimal unwind properties assisting ease of application.
- No need to tape
- Does not leave residue
- High tack
- Solvent resistant
- Easily removed
- High elongation
- Ensures dust and watertight seal during storage

## Application Instructions

- Obviously adhesion will be reduced on dusty or oily surfaces. Cleaning prior to use is recommended
- Avoid stretching the film during application
- It is the users responsibility to determine suitability for use. If in doubt contact our technical service team for advice.

## Uses

- Protection of duct work from contamination prior to installation

SPECIFICATIONS	Diamond Guard - 870
Construction	Consists of a low density polyethylene film with a pressure sensitive adhesive on one side.
Colour	Blue
Film Thickness	0.05mm
Adhesion	500g/25mm
Roll Size	1500mm x 60m, 1220mm x 60m, 900mm x 60m, 600mm x 60m.
Application Conditions	The surface must be free from oil, dust, solvents and separating agents.
Storage Conditions	Room temperature. Storage max 12 months from date of manufacture.

The technical data contained herein is based on our present knowledge and experience and we cannot be held liable for any errors, inaccuracies, omissions or editorial failings that result from technical changes or research between the date of issue of this document and the date the product is acquired. Before using the product, the user should carry out any necessary tests in order to ensure that the product is suitable for the intended application. Moreover, all users should contact the seller or the manufacturer of the product for additional technical information concerning its use if they think that the information in their possession needs to be clarified in any way, whether for normal use or a specific application of our product.
