

### Product Description

**A591** is a Double Sided Bleached Flatback Paper Tape with a high tack natural rubber resin adhesive system.

### Product Features

- A bleached flatback paper backing
- Low elongation at break
- Hand-tearable backing
- A high shear-resistant natural rubber adhesive system on both sides of the flatback paper carrier
- Special white coloured easy release treated crepe paper liner allows for either machine or hand application

### Benefits

- ✓ The product has a proprietary high-shear natural rubber adhesive system that confers excellent quick stick characteristics at ambient temperatures
- ✓ Easily hand torn
- ✓ Special creped release liner lends itself for use in automatic fixed length dispensers
- ✓ Highly versatile due to its inherent properties, making it easy to use

### Key Markets

- Primarily used for the application of golf grip handles to golf shafts, both metal and carbon fibre composites—both by manufacturers and also for repair and replacement (normally used in conjunction with a liquid applicator to allow the grips to slide on)
- Photographic mounting, scrapbooking and craft applications
- Point of Sale and display
- Carpet installation

### Applications

#### DISCLAIMER:

**Values:** All values presented have been determined by standard test methods and are average values only.

**Recommendations:** Whilst we are happy to recommend products from our range for applications, it is imperative that the customer/user complete their own tests to determine suitability for their application under "working conditions" and if longevity is important, that ageing tests be carried out.

**Warranty:** We can only warranty our products to the level that they are consistent with our Product Information Sheet values

**BUT CANNOT accept any responsibility or liability direct or consequential for loss or damage caused as a result of our recommendations.**
