

Product Type: Matt Fluorescent Cloth Tape

Colour: Fluorescent Yellow, Orange, Lime Green & Pink

Roll Size: 6mm to 1250mm in 25m Lengths

Adhesive: Rubber Natural

Description: A PE-coated cloth with a matt finish. The tape has a rubber adhesive designed to give a good blend of properties between quick-stick and clean removal. The tape is easy to tear in both transverse and longitudinal directions. The matt finish allows the tape to be written on with ballpoint pen and Texta markers.

Application: Entertainment Industry – Film Sets, TV Studios, Audio Visual, Lighting, Exhibition, Staging, Commercial Photography, Display, Automotive, Rigging, Construction, Security and Marine. For holding wiring, lighting and mark-up for positioning of props and equipment on stages. Colour coding applications as well as high visibility marking and identification.

Technical Details:

| | |
|----------------------|---------------|
| Gauge: | 0.30mm |
| Tensile Strength: | 44 N/cm |
| Elongation at Break: | 10% |
| Adhesion to Steel: | 3.2 N/cm |
| Service Temperature: | -35°C to 80°C |
| Storage Temperature: | 15°C to 25°C |
| Shelf Life: | 24 Months |

Surface Preparation: The surface on which the tape is to be used must be clean, dry and free from grease and dust. Remember that pressure sensitive adhesive must be applied with the maximum possible pressure in order to achieve maximum adhesion levels. The recommended application temperature is between 15°C and 25°C.

Storage: Tapes stored below the minimum application temperature will require warming up to that level before use. Up to 24 hours may be required for this to take place.
